Preeti Virvani

REVIT

Joining Lomos was indeed the best decision I took during this pandemic. They helped us learn from the very basics of the software and gradually moved forward towards actual project implications. Must say Lomos has the most polite and helpful tutors.

Priyanka Joshi

Hello everyone, this is Priyanka Joshi. I am a Practicing Architect, I really wanted to enhance my software skills so once i saw Lomos post on insta and enrolled myself for the course, all the teachers were so experienced and provided us with indepth knowledge of every software, the project classes were the most extensive part where we work on our own projects. Not only during the classes, i used to clear my doubt even after my classes were over, they are super supportive and full of knowledge!
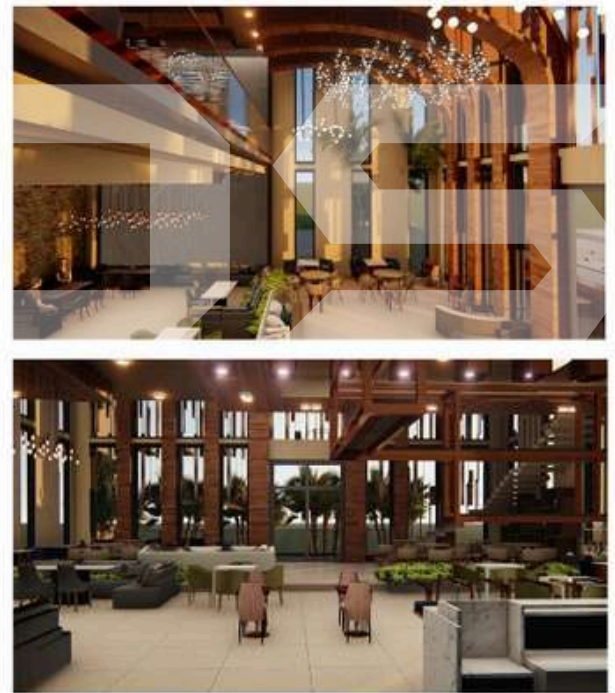

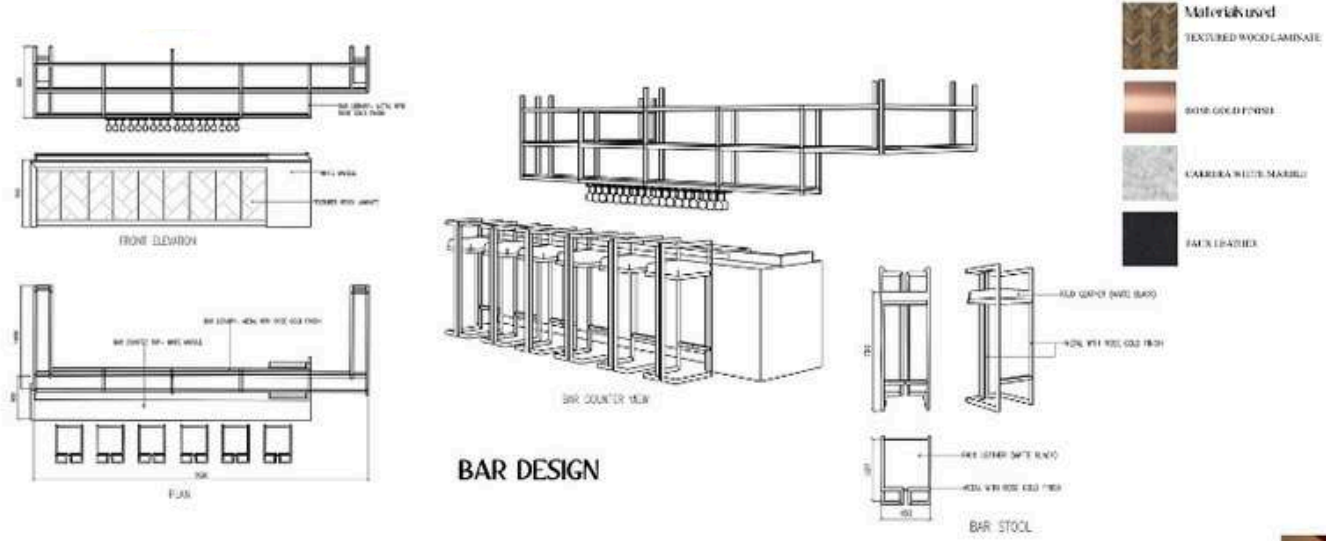

LOMOS ARCHILABS

Anjali Mehta

REVIT | LUMION | PHOTOSHOP

Had an amazing learning experience with Lomos. The tutors were very experienced and taught every detail precisely. Also were very cooperative when we asked doubts. Overall the workshops were very interesting and was worth every penny.
